LIAISON 1-1-1

4 April 1960

MEMORANDUM FOR: Chief, Operations Support Division
Detachment No. 1
Aeronautical Chart and Information Center
Department of the Air Force

SUBJECT: Gnomonic True Course and Distance Computer

1. This Division has continuing requirements for special purpose charts (gnomonic, stereographic, etc.) and frequently can satisfy them with ACIC charts.

2. After a most profitable contact with Mr. Henry Miller recently, we were able to short-cut our problem considerably. In view of this continuing potential aid, we wish to encourage your developmental work on long-range chart problems.

3. The review of the computers and supporting graphics recently submitted has encouraged us to request copies of the Missile Planning Charts (Polar Gnomonic) and the new computers. It will be appreciated if 10 copies of the latter can be submitted directly to this Division. The charts will be ordered through normal procurement channels.

4. Your consideration in this request is much appreciated.
